The TT-R250 has no vulnerable  
radiator and doesn't need a water  
pump – instead it's got closely  
spaced cooling fins. It doesn't need a  
finicky fuel-injection system, so it has  
a neat 30mm Teikei slide carb – not  
even a CV diaphragm to split, Cyril! –  
that can be stripped and cleaned out  
with a compressed air nozzle if  
necessary.
