This authoritative reference book assembles the experience of an international faculty of authors, each of whom has performed several thousand facelifts, i.e. procedures to rejuvenate and harmonize the human face. The authors share their experience, including tips and tricks, as well as ways to avoid complications and pitfalls. All procedures in this regard are covered and the text is accompanied by extensive artwork and photographs. A kaleidoscope of 363 important aspects, tips and tricks in facial plastic surgery rounds up the presentation.

This authoritative reference book assembles the experience of an international faculty of authors, each of whom has performed several thousand facelifts, i.e. procedures to rejuvenate and harmonize the human face. The authors share their experience, including tips and tricks, as well as ways to avoid complications and pitfalls. All procedures in this regard are covered and the text is accompanied by extensive artwork and photographs. A kaleidoscope of 363 important aspects, tips and tricks in facial plastic surgery rounds up the presentation.

This is a concise but comprehensive textbook for plastic surgery residents reviewing for in-service and certifying examinations as well as practicing plastic surgeons preparing for Maintenance of Certification. The book is divided into chapters based on the 24 so-called common plastic surgical procedures. This will allow a discussion of the procedure prior to embarking on surgery and serve as a basis for the development of a basic fund of knowledge in the specialty of Plastic, Reconstructive, and Aesthetic Surgery. Contributors have been selected based on their clinical expertise and academic excellence.

Fully updated to meet the demands of the 21st-century surgeon, *Aesthetic Plastic Surgery, Volume 2 of Plastic Surgery, 3rd Edition*, provides you with the most current knowledge and techniques in aesthetic plastic surgery, allowing you to offer every patient the best possible outcome. Access all the state-of-the-art know-how you need to overcome any challenge you may face and exceed your patients' expectations.

The new edition of this two volume set has been fully revised to provide dermatosurgeons with the latest developments and techniques in the field. The book has been expanded to eighteen sections and 152 chapters, all falling under subspecialties of dermatosurgery, aesthetics, lasers, and practice management. Each technique includes discussion on historical background, indications, contraindications, instrumentation, procedures, adverse effects, complications, and references. The second edition features 81 new chapters on topics such as body shaping, microneedle RF, new laser and energy technologies, platelets rich plasma, regional surgeries, and training in dermatosurgery. The text is enhanced by nearly 2000 clinical photographs and diagrams and also includes text boxes, tables and keynotes in each chapter. Key points Fully revised, second edition of two volume set providing latest techniques in cutaneous and aesthetic surgery Expanded text with 81 new chapters Features nearly 2000 clinical photographs and diagrams Previous edition (9789350258903) published in 2012

Simplified Facial Rejuvenation is divided into sections that include anatomy and anesthesia, classifications, dermatologic procedures, suture lifts, surgical variations of the face, surgical variations of the eyes, brow, neck, lips, nose ear, and scalp, and medical legal aspects. The book presents multiple variations of suture lift procedures to allow the physician to decide which is best. Unique surgical procedures of the face are presented, many of which are techniques of minimal incision facelift. The book brings together the more popular procedures for patients that include simpler methods of facial rejuvenation with less pain, shorter recovery time, lower cost, and fewer complications.

Fully updated to meet the demands of the 21st-century surgeon, Plastic Surgery provides you with all the most current knowledge and techniques across your entire field, allowing you to offer every patient the best possible outcome.
