Examines how England's peculiar class system was established by some snobby French nobles whose posh descendents still have wine cellars and second homes in the Dordogne. This title explores the complex socio-economic reasons why Britain's kings were the first in Europe to be brought to heel. It is a journey through Britain' bizarre history.

From 55BC to 1945, *An Utterly Impartial History of Britain* elucidates, informs, but most of all laughs at the seemingly incomprehensible events that combine to make up the story of Great Britain.

It's a big night at the London Palladium. As Jimmy Conway steps out blinking into the spotlights live on national television, he can't help wondering whether he should have perhaps shared his little secret with someone by now. Jimmy has never done any performing of any sort ever before... Just as 'bogus doctors' are occasionally discovered working in hospitals, Jimmy Conway has become a 'bogus celebrity'; winning an award for something he never did, being photographed in *Hello!* in someone else's house, and ultimately making a fool of the entire mad and shallow celebrity merry-go-round.

PI John Craine - still struggling to cope with the weight of his past - is forced to finally confront it in his most personal and frightening case yet. PI John Craine is hired to investigate the brutal murder of a Somali youth called Jamaal Tan. The police are treating the murder as just another gang-related crime, but Tan's aunt believes there's more to it than that, and she claims the police are trying to cover up her nephew's death. While investigating the case, Craine learns of the sudden death of his friend and mentor Leon Mercer. At first it appears to be a tragic accident, but Craine soon finds himself entangled in two deeply suspicious investigations. And before long he comes face to face with a man he hoped never to see again.

Michael Adams shares a flat with three other men in their late twenties. Days are spent lying in bed, playing computer games and occasionally doing a bit of work. And then, when he feels like it, he crosses the river and goes back to his unsuspecting wife and children. For Michael is living a double life - he escapes from the exhausting misery of babies by telling his wife he has to work through the night or travel up north. And while she is valiantly coping on her own, he is just a few miles away in a secret flat, doing all the things that most men with small children can only dream about. He thinks he can have it all, until his deception is inevitably exposed... *The Best a Man Can Get* is written with the hilarious eye for detail that sent John O'Farrell's first book, *Things Can Only Get Better*, to the top of the bestseller lists. It is a darkly comic confessional that is at once compelling, revealing and very, very funny.

Lots of husbands forget things. They forget that their wives had an important meeting that morning; they forget to pick up the dry cleaning; some of them even forget their wedding anniversary. But Vaughn has forgotten he even has a wife - her name, her face, everything they ever did together - it has all gone, mysteriously wiped in one catastrophic moment of memory loss. And now he has rediscovered her - only to find out that they are getting divorced.

Isn't it always the way? You wait ages for one purple flour-filled condom and then three come along at once. Of course the correct procedure for a chemical attack in the House of Commons would have been for MPs to remain in the chamber and remove all items of clothing. I'm not sure which is the more horrific vision; anthrax all over London or Nicholas Soames slipping out of his Y-fronts while chatting to a naked Ann Widdecombe. Here at last is the third collection of John O'Farrell's immensely popular *Guardian* columns - the final part of the trilogy in which he discovers that Margaret Thatcher is actually his mother. Contained within these covers are a hundred funny, satirical essays on subjects as diverse as Man's ascent from the apes and the re-election of George W. Bush. Plus there is a full account of O'Farrell's heroic but slightly less successful attempt to capture his Tory home town for socialism. He claims that identity fraud has got so bad that an audacious impostor using the name A.L. Blair even managed to get himself a Labour Party card by posing a left-wing champion of wealth distribution and civil rights. He asks why a Blackberry isn't compatible with an Apple. And find out why the Queen didn't go to her own son's wedding; 'What happened to that other girl you were seeing?' 'Mother, we got divorced and then she died in a car crash, remember?' 'Well sometimes you have to work at these things dear...'
