Microeconometrics Using Stata | Adrian Colin Cameron ...  
A brief example to model the Cobb-Douglas utility function using Stata. Regarding microeconometrics, we can find applications that go from latent variables to model market decisions (like logit and probit models) and techniques to estimate the basic approaches for consumers and producers.

Microeconometrics | MSR Economics Perspective  
discussions of Stata examples, Microeconometrics Using Stata provides an invaluable hands-on introduction to microeconometrics. While the Stata examples provide an important foundation, the authors also show how to use some of Stata's programming features to implement methods for which there are not yet commands. The book is not a detailed introduction to Stata programming but instead shows how to solve programming problems with a minimum of formal programming.
