Next, Intimacy and Desire (2009) expanded his integration of sexual desire and differentiation to include interpersonal neurobiology through mind-mapping. Schnarch promotes public awareness that normal healthy couples have sexual problems.

Intimacy and Desire

Intimacy and Desire (2009) expanded his integration of sexual desire and differentiation to include interpersonal neurobiology through mind-mapping. Schnarch promotes public awareness that normal healthy couples have sexual problems.

Many couples begin marital counseling with Dr. David Schnarch with their sex lives in shambles, wondering what's wrong with them, considering divorce. One partner will complain that the other doesn't desire him, the other complains that she's married to a sex maniac. During his 30 years in practice as a marriage and family therapist, Dr. Schnarch has discovered that sexual desire problems are normal and even healthy, in committed relationships.In Intimacy and Desire: Awaken the Passion in Your Relationship, Dr. Schnarch explains why couples in long term relationships have sexual desire problems, regardless of how much they love each other or how well they communicate. Through case studies of couples he worked with, Dr. Schnarch shows why normal marital conflict can be the cause of desire problems and creates a roadmap for how couples can transform marital conflict into a stronger relationship and a font of new and powerful desire for each other. He takes it a step further, giving readers simple but effective exercises that will help them reconnect with each other.

In this groundbreaking book, Dr. David Schnarch, one of the foremost experts on sexuality and relationships, explains why normal healthy couples in long-term relationships have sexual desire problems, regardless of how much they love each other or how well they communicate. In-depth examples of couples he has counselled reveal his unique understanding of common-but-difficult sexual desire problems that affect couples of all ages. Combining compassion and clinical wisdom, Dr. Schnarch explains how to use his revolutionary Four Points of Balance approach to resolve low desire, mismatched desire, sexual boredom, and the emotional gridlock that accompanies these problems. Intimacy and Desire provides a roadmap for how couples can transform common sexual desire problems into self-exploration and personal development that leads to psychological and spiritual growth, stronger relationships, and more powerful and meaningful desire for each other. It provides time-proven comprehensive solutions that help couples reconnect with each other sexually, and take their intimacy and passion to new, previously unexplored heights.

Through case studies of couples he worked with, Dr. Schnarch shows why normal marital conflict can be the cause of desire problems. He creates a road map for how you can transform marital conflict into a stronger relationship and a source of new and powerful desire for each other. He takes it a step further, giving readers simple but effective exercises that will help them reconnect with each other.

This book challenges the fundamental paradigms in sexual-marital therapies, and provides a fresh look at the nature of intimacy and the diverse barriers to eroticism in many marriages.

In this remarkable new book, Dr. David Schnarch, world-renowned sex and marital therapist and author of Passionate Marriage, offers a groundbreaking approach to resolving sexual difficulties and the relationship problems they cause. By showing couples how they can turn their worst sex and relationship disasters into personal growth and spiritual connection, Dr. Schnarch offers couples the best sex of their lives. In addition to taking an unflinchingly honest, realistic, and erotic approach to sex, Dr. Schnarch reveals the complicated emotional interactions hidden within couples' most private moments. Resurrecting Sex speaks of compassion, partnership, generosity, and integrity in adult sexual relationships, offering hope to millions of people -- golden-anniversary marriages, newly formed couples, and singles alike -- who are struggling with sexual difficulties. Uplifting, provocative, and heartfelt, the book is organized into four sections: A crash course in sex Explanation of how sexual relationships really work Medical options and bionic solutions Vignettes of couples changing their sexual relationships Resurrecting Sex addresses all major sexual issues, including male erection problems such as rapid orgasm and delayed orgasm; women's problems with arousal and lubrication, difficulty reaching orgasm, and low desire; full coverage of Viagra (for both men and women); and other sex-enhancing drugs and medical options. Rather than dwelling on sexual techniques, this sympathetic book shows how to cure the rejection, hostility, and emotional alienation that often accompany sexual problems. Its unique method helps couples develop the love, affection, and commitment that prevent divorce and strengthen families. Generous of spirit, enlightened, and insightful, Resurrecting Sex is destined to make the world a better place to fall in love.

A sexual and marital therapist explains how to achieve emotional, sexual, and personal fulfillment and intimacy with one's partner in a committed relationship. Tour.

Have you ever done something you knew would make someone else happy, sad or angry? Have you ever bought a thoughtful gift for someone you love? Or realized someone was being sarcastic with you? Or enjoyed someone else's misfortune? These everyday events involve mind mapping, your brain's ability to create mental pictures of how someone else's mind works. Mind mapping underlies all aspects of daily life, from the best to the worst. You won't find an aspect of your life where mind mapping isn't involved-and you probably never heard about mind mapping before! Brain Talk offers what you need to know about mind mapping and the emerging brain science of interpersonal neurobiology (how interacting with other people affects your brain). Brain Talk is written for the general public in an easy-to-read style and establishes a personal relationship with you. It creates vivid pictures in your mind with attention-grabbling examples, and walks you into powerful new insights about yourself and the important people in your life. Reading Brain Talk can be a life-changing experience. * Part One explains mind mapping and increases your ability to "read" people and map their minds (and your own). It helps you know what they want, what they're feeling and thinking, and what they're likely to do. Part One also covers mind masking (shielding your mind from being mapped), lying and deception. Brain Talk revolutionizes your understandings of yourself, your spouse or romantic partner, and your children, parents, siblings, and coworkers. * Part Two explores the darker aspects of mind mapping, like traumatic mind mapping and antisocial empathy.Traumatic mind mapping occurs when mapping some else's mind leaves your brain/mind traumatized. Did you grow up in a troubled home with experiences that produced vivid "flashbulb memories" lingering in your mind? Do you have recurring thoughts about someone you're dealing with who does disturbing things? Brain Talk helps you understand subtle interpersonal trauma and reveals the short- and long-term negative impacts of traumatic mind mapping. * Part Three shows you how to repair the negative impacts of traumatic mind mapping and effectively handle the difficult people in your life. Brain Talk also details how to use mind mapping to create positive healthy interactions with those you love, and ends on an uplifting note. Brain Talk is based on Crucible(r) Neurobiological Therapy, developed through fifteen years of clinical research with highly troubled clients. Brain Talk is also a crossover book for

therapists, educators, and avid readers of brain science. * Four Appendices contain the scientific research underlying the main text and offer in-depth discussions of important topics and treatment details (over 100 pages and 400 references). Brain Talk is available in three versions: paperback and TWO Kindle versions (Standard and Professional). Brain Talk Professional Edition offers the additional functionality of directly downloading FREE scientific brain research articles published online. Consider this electronic edition if you a mental health professional, academic, graduate student, or die-hard brain wonk.(Read about Brain Talk Pro here.) Brain Talk is written by the award-winning clinical psychologist, Dr. David Schnarch, renowned relationship expert and author of the international best-selling books, Passionate Marriage and Intimacy & Desire. He has a proven track record for creating innovative therapies, and making complex brain science understandable and useful to the general public. His ground-breaking professional contributions have received awards from the American Psychological Association, the American Assn. for Marriage and Family Therapy, and the American Assn. of Sex Educators, Counselors, and Therapists. He is Board Certified in Couple and Family Psychology (ABPP), and his textbook Constructing the Sexual Crucible is used by therapist training programs around the world.

Heralded by the New York Times and Time as the couples therapy with the highest rate of success, Emotionally Focused Therapy works because it views the love relationship as an attachment bond. This idea, once controversial, is now supported by science, and has become widely popular among therapists around the world. In Hold Me Tight, Dr. Sue Johnson presents Emotionally Focused Therapy to the general public for the first time. Johnson teaches that the way to save and enrich a relationship is to reestablish safe emotional connection and preserve the attachment bond. With this in mind, she focuses on key moments in a relationship -- from "Recognizing the Demon Dialogue" to "Revisiting a Rocky Moment" -- and uses them as touch points for seven healing conversations. Through case studies from her practice, illuminating advice, and practical exercises, couples will learn how to nurture their relationships and ensure a lifetime of love.

"The former federal prosecutor and congressman for South Carolina breaks down the art of persuasion into a few shockingly simple, easy-to-follow, and proven steps that will help readers win arguments, gain support for their cause, and convey their message successfully. You may never find yourself in front of jury during a criminal prosecution arguing for a particular verdict or offering yourself for elected office in a political campaign. You simply want to be heard. You want to be understood. You want to effectively communicate what you believe, why you believe it, and perhaps why others should adopt your position as well. This book will help you get better at advancing what you believe through the art of asking the right questions, at the right time, in the right order, and in the right form. Blending gripping case studies, relatable personal stories, digestible evidence, and practical advice, it walks you through the tools and the mindset needed to effectively communicate. Using the same techniques he used from the courtroom to Congress, Trey Gowdy helps you land on your objective, know your jury, establish your burden of proof, and formulate strategic questions to persuade effectively beyond a reasonable doubt. The art of asking the right questions, listening to the response, and following up in a systematic way is essential to moving hearts and minds. And that should always be our objective when it comes to persuasion: striving not only to communicate but to move our audience to action. So let's get moving!"--
