Firstly the 1098R is an 1198 (but I guess you knew that) the 848 / 1098 gearbox is different to the 2008 1098R gearbox and in 2009 it changed again for the 1098R and 1198 base and S models which were now all the same. The main reason they destruct I would guess is through the use of aftermarket quick shifters causing issues.
