William George Armstrong, 1st Baron Armstrong CB FRS was an English engineer and industrialist who founded the Armstrong Whitworth manufacturing concern on Tyneside. He was also an eminent scientist, inventor and philanthropist. In collaboration with the architect Richard Norman Shaw, he built Cragside in Northumberland, the first house in the world to be lit by hydroelectricity. He is regarded as the inventor of modern artillery. Armstrong was knighted in 1859 after giving his gun patents to th

Emperor of Industry: Lord Armstrong of Cragside by Ken ...

All this was the work of one man - Lord Armstrong of Cragside. Born in 1801 he was one of the most influential men in the North East during the Victorian era. This pioneering engineer was also a great philanthropist. His generosity helped to establish many institutions that still thrive in Newcastle today.

Emperor of Industry: Lord Armstrong of Cragside: Amazon.co ...

The Life of Lord Armstrong A public lecture by Ken Smith, author of Emperor of Industry, Lord Armstrong of Cragside and several other illustrated books about the history of Tyneside. As Ken Smith explains, although Armstrong's company produced deadly weapons of destruction, his life story, by contrast, is that of a man who did much to help his fellow human beings through numerous charitable donations.

William Armstrong | Armstrong 200 events

Cragside is a Victorian country house near the town of Rothbury in Northumberland, England. It was the home of William Armstrong, 1st Baron Armstrong, founder of the Armstrong Whitworth armaments firm. An industrial magnate, scientist, philanthropist and inventor of the hydraulic crane and the Armstrong gun, Armstrong also displayed his inventiveness in the domestic sphere, making Cragside the first house in the world to be lit using hydroelectric power. The estate was technologically advanced;

Cragside - Wikipedia

William Armstrong started a small factory on the riverside at Elswick in 1847 making hydraulic machinery. In time the works expanded to encompass armaments and shipbuilding, and had extended more than a mile along the river bank by the opening of the 20th century.
