The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

The approach used by Hoyle, Schaefer, and Doupnik allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this Advanced Accounting textbook, students gain a well-balanced appreciation of the profession. As the 14th edition delves into the many aspects of accounting, it often focuses on past controversies and present resolutions. The Hoyle/Schaefer/Doupnik textbook shows the development of financial reporting as a product of intense and considered debate that continues today and into the future. Students easily comprehend concepts because of the textbook's highly praised conversational tone along with the engaging, lively, and consistent writing style, all of which has contributed to making this the market-leading textbook for Advanced Accounting. The SmartBook 2.0 adaptive reading tool and algorithmic problems have been included in the new edition, along with the latest accounting standards.

While many texts characterize themselves as having either a "user" approach or a "preparer" approach, Williams, Financial Accounting, is written for faculty who want to strike a balance between these approaches. Business majors will find relevance in the "Ethics, Fraud & Corporate Governance," "Management Strategy," "Your Turn" and "Case in Point" boxes throughout the chapters while accounting majors will receive a firm grounding in accounting basics that will properly prepare them for their intermediate accounting course. A unique feature is the multimedia companion, My Mentor. This text-specific technology resource (available free on the book's website or for purchase on CD-Rom) uses video clips, animated graphics and Excel templates to demonstrate accounting concepts, expressing accounting visually. This allows students to link concepts and numbers together in an interactive rather than print environment.

David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.

Quickly get up-to-speed in all basic accounting principles and procedures and apply that knowledge to real-world financial decisions and requests The McGraw-Hill 36-Hour Accounting Course has been the gold standard for anyone looking for a fast, no-nonsense primer in all the fundamentals of financial, managerial, and tax accounting concepts. Now thoroughly revised and updated, the fourth edition features new coverage of the technological developments in the field, the recent sweeping tax reforms, and the latest Financial Accounting Standards Board pronouncements. The McGraw-Hill 36-Hour Accounting Course offers such up-to-date coverage as: Complete analysis of the current trends in computer hardware and accounting software Coverage of current tax issues, such as the revision of tax rate structure, new deductions and credits for higher education costs, and taxation of Social Security benefits New test problems throughout to help you gauge your progress, as well as a final exam that can earn you a Certificate of Achievement Complete with a doable study plan, The McGraw-Hill 36-Hour Accounting Course is your fast track to easily mastering the essentials of accounting in the shortest time possible.

Now in its 14th edition, Nobes and Parker's Comparative International Accounting is a comprehensive and coherent text on international financial reporting. It is primarily designed for undergraduate and postgraduate courses in comparative and international aspects of financial reporting. The book explores the conceptual and contextual found.

As the long-time #1 best-seller, Garrison has helped guide close to 3 million students through managerial accounting since it was first published. It identifies the three functions managers must perform within their organisations-plan operations, control activities, and make decisions-and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Garrison's Managerial Accounting is known for its relevance, accuracy, and clarity. It is also unique in that the authors write the most important supplements that accompany the book: solutions manual, test bank, instructor's manual, and study guide - making them both of high quality and extremely consistent with the textbook.

The Study Guide, written by the text authors, provides chapter summaries, detailed illustrations, and a wide variety of self-study questions, exercises, and multiple-choice problems (with solutions). This resource is for use with both Williams' Financial Accounting 13e and Financial & Managerial Accounting 14e text.
