Specifically designed for California students and teachers. The California Mathematics Content Standards are unpacked, taught, and then reinforced throughout our program so that teachers can plan, diagnose, teach, assess, and intervene with the standards in mind.

The Big Ideas Math program balances conceptual understanding with procedural fluency. Embedded Mathematical Practices in grade-level content promote a greater understanding of how mathematical concepts are connected to each other and to real-life, helping turn mathematical learning into an engaging and meaningful way to see and explore the real world.
