Corridor | Definition of Corridor by Merriam-Webster
Corridor definition, a gallery or passage connecting parts of a building; hallway. See more.

Corridor | Definition of Corridor at Dictionary.com
The main difference between corridor and hallway is the usage of these words. Both refer to a passage in a building in which doors lead to rooms. We usually use the word corridor to describe passageways in hotels and offices and the word hallway to describe homes. Many modern buildings have corridors or hallways.

What is the Difference Between Corridor and Hallway ...
Economic corridors are integrated networks of infrastructure within a geographical area designed to stimulate economic development. They connect different economic agents in particular geographic area. Corridors may be developed within a country or between countries. Corridors exist in Asia, Africa, and other areas.

Economic corridor - Wikipedia
Insects and other plant pollinators also need connected land corridors to feed and rest along their air journeys. Every spring and fall, monarch butterflies migrate up to 3,000 miles between their overwintering sites in Mexico and California and their breeding areas up north.
