MATLAB GUI Graphical user interfaces (GUIs), also known as apps, provide point-and-click control of your software applications, eliminating the need for others to learn a language or type commands in order to run the application. You can share apps both for use within MATLAB and also as standalone desktop or web apps.

MATLAB GUI - MATLAB & Simulink - MathWorks

Create a Simple App Using GUIDE Open a New UI in the GUIDE Layout Editor. Start GUIDE by typing guide at the MATLAB prompt. In the GUIDE Quick Start... Set the Window Size in GUIDE. Set the size of the window by resizing the grid area in the Layout Editor. Click the... Layout the UI. Add, align, and ...

Create a Simple App Using GUIDE - MATLAB & Simulink

At this point, you can run the GUI by clicking the green Run button. This will generate a MATLAB FIG file which displays our GUI. Let's go ahead and save the layout. So here's what the GUI looks like so far. All of the components are displayed exactly as they were in the editor, including the toolbar.

How to Create a GUI with GUIDE - Video - MATLAB

Building a GUI in Matlab using Guide – Part I 1) Hit: The player is asking for additional cards. For example if you have a 5 and a 2, for a total of 7, you ' d always... 2) Stand: Keep your hand as is. There are certain hands where this is obvious, i.e. a T and a 9, for a total of 19.
