Do you want to learn Dutch the fast, fun, and easy way? And do you want to master daily conversations and speak like a native? Then this is the book for you. Learn Dutch: Must-Know Dutch Slang Words & Phrases by DutchPod101 is designed for beginner-level learners. You learn the top 100 must-know slang words and phrases that are used in everyday speech. All were handpicked by our team of Dutch teachers and experts. Here's how the lessons work:– Every chapter is based on a theme - You learn slang words or phrases related to that theme - Learn the translation and how to use each one - Just listen and repeat And by the end, you will have mastered 100+ Dutch slang words and phrases!
Forget the 10,000 hour rule— what if it ' s possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What ' s on your list? What ' s holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don ' t have and effort you can ' t spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That ' s why it ' s difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It ' s so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you ' ll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You ' ll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level; Figure out what your desired level of skill looks like, what you ' re trying to achieve, and what you ' ll be able to do when you ' re done. The more specific, the better. Deconstruct the skill; Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it ' s easier to figure out which ones are most important and practice those first. Eliminate barriers to practice; Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops; Getting accurate, real-time information about how well you ' re performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.
Drawing on archaeological and narrative sources, this collection of studies offers a fresh look at some of the most interesting aspects of the current research on the medieval nomads of Eastern Europe.

Published for the American Educational Research Association by Routledge This landmark volume presents the work of the American Educational Research Association's Panel on Research and Teacher Education. It represents a systematic effort to apply a common set of scholarly lenses to a range of important topics in teacher education. The Panel's charge was twofold: "to create for the larger educational research community a thorough, rigorous, and even-handed analysis of the empirical research evidence relevant to major policies and practices in pre-service teacher education in the U.S., and "to propose a research agenda related to teacher education that builds on what is already known and that identifies the research directions that are most promising for the future. Members of the Panel were appointed from various sectors of the educational research community and with different areas of expertise, including teacher education, policy, assessment, research design and methods, liberal arts, multicultural education, and school reform. Building on their diverse perspectives, they ably translated their charge into a series of questions that became the framework for this volume. The questions illuminate many of the issues that have been most contested in past and current discourse about teacher education reform. Studying Teacher Education examines research about the current pool of prospective and entering teachers and about local, institutional, state, and federal preservice teacher education policies and practices. The book includes three general chapters and nine research syntheses. "The AERA Panel on Research and Teacher Education: Context and Goals "Researching Teacher Education in Changing Times: Politics and Paradigms "Teacher Characteristics: Research on the Demographic Profile "Teacher Characteristics: Research on the Indicators of Quality "Research on the Effects of Coursework in the Arts and Sciences and in the Foundations of Education "Research on Methods Courses and Field Experiences "Research on Pedagogical Approaches in Teacher Education "Research on Preparing Teachers for Diverse Populations "Research on Preparing Teachers to Work with Students with Disabilities "Research on Accountability Processes in Teacher Education "Research on Teacher Education Programs "A Research Agenda for Teacher Education Each chapter reviews the empirical literature and proposes a research agenda that builds on and extends what is known about a topic. A chart at the end of each chapter provides summary information for each of the empirical studies synthesized and two reference lists—one for all of the studies reviewed in the chapter and one for additional references used. The volume includes an introductory chapter on the Panel's context and goals, and an accessible Executive Summary of the book as a whole. Studying Teacher Education: The Report of the AERA Panel on Research and Teacher Education is a timely, indispensable reference for all researchers and professionals in the field.
The Old Turkic Yenisei Inscriptions have been significantly less thoroughly investigated than the famous Orkhon Inscriptions, and many paleographical, grammatical, and lexical aspects are still insufficiently examined. This book is the first monograph study of eight inscriptions found near the Uybat River in Khakassia, seven of which are engraved in stone, one in the bottom of a silver vessel. Although all but one of the inscriptions have been the object of research, many problems regarding the glyphs and their reading are unsolved. The present study collects and compares all relevant information available on the Uybat Inscriptions and provides a thorough, revised analysis of the texts. Every inscription is presented in transliteration, transcription and translation, with detailed metadata, exhaustive information on the glyph inventory, and a comprehensive critical apparatus. The book also contains a glossary of all identifiable lexemes and a morphology index. Drawings, photographs and facsimiles are given in the appendix. The study contributes to our understanding of the language, script, and culture of the Old Turkic civilization in the Yenisei area and can serve as a model for further studies on individual inscription groups.
English Skills 1 Answers summarises for teachers and other helpers the key Focus of each set of questions and gives answers to facilitate marking. Writing task assessment sheets and Completed proofreading tasks are also provided.

Discusses how readers can make persuasive presentations that inspire action, engage the audience, and sell ideas.
The Wall Street Journal Bestseller! Updated to include Steve Jobs's iPad and iPad2 launch presentations " The Presentation Secrets of Steve Jobs reveals the operating system behind any great presentation and provides you with a quick-start guide to design your own passionate interfaces with your audiences. " —Cliff Atkinson, author of Beyond Bullet Points and The Activist Audience Former Apple CEO Steve Jobs ' s wildly popular presentations have set a new global gold standard—and now this step-by-step guide shows you exactly how to use his crowd-pleasing techniques in your own presentations. The Presentation Secrets of Steve Jobs is as close as you'll ever get to having the master presenter himself speak directly in your ear. Communications expert Carmine Gallo has studied and analyzed the very best of Jobs's performances, offering point-by-point examples, tried-and-true techniques, and proven presentation secrets in 18 "scenes," including: Develop a messianic sense of purpose Reveal the Conquering hero Channel your inner Zen Stage your presentation with props Make it look effortless With this revolutionary approach, you ' ll be surprised at how easy it is to sell your ideas, share your enthusiasm, and wow your audience the Steve Jobs way. " No other leader captures an audience like Steve Jobs does and, like no other book, The Presentation Secrets of Steve Jobs captures the formula Steve uses to enthrall audiences. " —Rob Enderle, The Enderle Group " Now you can learn from the best there is—both Jobs and Gallo. No matter whether you are a novice presenter or a professional speaker like me, you will read and reread this book with the same enthusiasm that people bring to their iPods." —David Meerman Scott, bestselling author of The New Rules of Marketing & PR and World Wide Revave
