BASICS; Plasma Televisions: Like Works of Art And Just as ...

A plasma display panel (PDP) is a type of flat panel display that uses small cells containing plasma: ionized gas that responds to electric fields. Plasma TVs were the first flat panel displays to be released to the public.. Until about 2007, plasma displays were commonly used in large televisions (30 inches (76 cm) and larger). Since then, they have lost nearly all market share due to ...
