India was brought into the war by the Viceroy Linlithgow declaring that India was at war with Germany with no consultations with Indian politicians. During the Second World War, India was controlled by the United Kingdom, with the British holding territories in India including over six hundred autonomous Princely States. British India officially declared war on Nazi Germany in September 1939. The British Raj, as part of the Allied Nations, sent over two and a half million soldiers to fight under

## India in World War II - Wikipedia

World War II (WWII or WW2), also known as the Second World War, was a global war that lasted from 1939 to 1945. It involved the vast majority of the world's countries—including all the great powers—forming two opposing military alliances: the Allies and the Axis. In a state of total war, directly involving more than 100 million personnel from more than 30 countries, the major participants ...

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included Stalingrad and The Fall of Berlin 1945. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating

period in world history, and confirms once more that he is a military historian of the first rank.

From the Back Cover: From the moment of its publication in 1961, A.J.P. Taylor's seminal work caused a storm of praise and controversy, and it has since been recognized as a classic: the first book ever to examine exclusively and in depth the causes of the Second World War and to apportion the responsibility among Allies and Germans alike. With crisp, clear prose and brilliant analysis, Taylor established that the war, "far from being premeditated, was a mistake, the result on both sides of diplomatic blunders." He argued that Hitler was more an opportunist than an ideologue who owed his successes to Great Britain's and France's tacking between resistance and appeasement, and to an American policy akin to "the significant episode of the dog in the night, to which Sherlock Holmes once drew attention. When Watson objected: 'But the dog did nothing in the night,' Holmes answered: 'That was the significant episode.' "The Times Literary Supplement called *The Origins of the Second World War* "simple, devastating, superlatively readable, and deeply disturbing," and it remains so now—a groundbreaking book of enduring importance.

2022-23 UPPCS (Mains) General Hindi, Essay & General Studies

An incisive, unsentimental account of the emotional and psychological atmosphere of World War II and the war's effect on the literary world.

" Mr. Gilbert brings the strongest possible credentials to his history of World War II, and the result is a magisterial work " (The New York Times). In the hands of master historian Martin Gilbert, the complex and compelling story of the Second World War comes to life. This narrative captures the perspectives of leading politicians and war commanders, journalists, civilians, and ordinary soldiers, offering gripping eyewitness accounts of heroism, defeat, suffering, and triumph. This is one of the first historical studies of World War II that describes the Holocaust as an integral part of the war. It also covers maneuvers, strategies, and leaders operating in European, Asian, and Pacific theatres. In addition, this book brings in survivor testimonies of occupation, survival behind enemy lines, and the experience of minority groups such as the Roma in Europe, to offer a comprehensive account of the war ' s impact on individuals on both sides. This is a sweeping narrative of one of the most deadly wars in history, which took almost forty million lives, and irrevocably changed countless more.

" Gilbert ' s flowing narrative is spiced with anecdotal details culled from diaries, memoirs, and official documents. He is especially skillful at interweaving summaries of military strategy with vignettes of civilian suffering. " —Newsweek " [A] masterful account of history ' s most destructive conflict. " —Publishers Weekly
