Terminologia Anatomica (TA) is the international standard on human anatomic terminology. It was developed by the Federative Committee on Anatomical Terminology (FCAT) and the International Federation of Associations of Anatomists (IFAA) and was released in 1998. It supersedes the previous standard, Nomina Anatomica.

## *Terminologia Anatomica. International Anatomical Terminology*

Terminologia Anatomica is the international standard of anatomical terminology published by FIPAT (Federative International Programme for Anatomical Terminology), a program of IFAA (the International Federation of Associations of Anatomists). For more information on TA2, including status, citation and licensing information, please see: <https://fipat.library.dal.ca/ta2/> .

## *TA2 Viewer - The Open Anatomy Project*

The Federative International Committee for Anatomical Terminology ( FICAT) is a group of experts who review, analyze and discuss the terms of the morphological structures of the human body. It was created by the International Federation of Associations of Anatomists (IFAA), and was originally known as the Federative Committee on Anatomical Terminology ( FCAT ).

## *Federative International Committee on Anatomical Terminology*

The purpose of FIPAT is to maintain the IFAA Terminologies (the international standard human anatomical nomenclature), and to increase the use and usefulness of the terminologies.

## *Anatomical Terminology (FIPAT) | IFAA*

Terminologia Anatomica (TA), ( tʔr-mʔ-nʔ-lʔjʔ-ah ah-nah-tʔmʔ-kah ), A system of anatomic nomenclature, consisting of about 7500 terms, devised and approved by the International Federation of Associations of Anatomists (IFAA) and promulgated in August 1997 at São Paulo, Brazil. Since its foundation in 1903 the IFAA has held periodic conventions for the standardization of anatomic concepts and terminology.

## *Terminologia Anatomica | definition of Terminologia ...*

The official anatomical terminology was composed by the Federative Committee on Anatomical Terminology (FCAT) (which has been succeeded by the Federative International Programme for Anatomical Terminology - FIPAT) and was agreed upon and laid down by the International Federation of Associations of Anatomists (IFAA) in the Terminologia Anatomica (TA).

## *About - AnatomicalTerms.info*

The current international standard for human anatomical terminology is based on the Terminologia Anatomica (TA). It was developed by the Federative Committee on Anatomical Terminology (FCAT) and the International Federation of Associations of Anatomists (IFAA) and was released in 1998. It supersedes the previous standard, Nomina Anatomica.
