When **LIVING TOGETHER IN A
WORLD FALLING APART** was first
published in 1974, tensions in society-an
unpopular war, racial divisions, fearful
economics, the seeming futility of
"success," and widespread alienation-were
not addressed in most churches. Racism
still thrived, worship meant three hymns

and you're out, and relationships had deteriorated to weekly handshakes. But many believed-based on New Testament descriptions of the early church-that this couldn't be all God planned for his people. These restless souls eagerly read about Dave and Neta Jackson's personal search as they experimented with household

Written in a breezy, candid manner, **LIVING TOGETHER** became not only a bestseller and classic "handbook on Christian community," but provided perhaps the only sociological snapshot of the many Christian communities from that

How to research, visit, evaluate, and join the ecovillage or sustainable community of your dreams. Finding community is as critical as obtaining food and shelter, since the need to belong is what makes us human. The isolation and loneliness of modern life have led many people to

search for deeper connection, which has resulted in a renewed interest in intentional communities. These intentional communities or ecovillages are an appealing choice for like-minded people who seek to create a family-oriented and ecologically sustainable lifestyle—a lifestyle they are unlikely to find anywhere

else. However, the notion of an intentional community can still be a tremendous leap for some—deterred perhaps by a misguided vision of eking out a hardscrabble existence with little reward. In fact, successful ecovillages thrive because of the combined skills and resources of their members. Finding Community presents a

With the troubling and painful events of
the last several years—from the killing of
numerous unarmed Black men and women
at the hands of police to the rallying of

white supremacists in Charlottesville—it is clearer than ever that the reconciliation paradigm, long favored by white Christians, has failed to heal the deep racial wounds in the church and American society. In this provocative book, originally published in 2014, Jennifer Harvey argues for a radical shift away

Why, in age of connectivity, are our lives
more isolated and fragmented than ever?

And what can be done about it? The
answer lies in the hands of God's people.

Increasingly, today's Christians want to be

the church, to follow Christ together in daily life. From every corner of society, they are daring to step away from the status quo and respond to Christ's call to share their lives more fully with one another and with others. As they take the plunge, they are discovering the rich, meaningful life that Jesus has in mind for

all people, and pointing the church back to its original calling: to be a gathered, united community that demonstrates the transforming love of God. Of course, such a life together with others isn't easy. The selections in this volume are, by and large, written by practitioners--people who have pioneered life in intentional community

Janzen

An intentional community is a group of people who have chosen to live or work together in pursuit of a common ideal or

vision. An ecovillage is a village-scale intentional community that intends to create, ecological, social, economic, and spiritual sustainability over several generations. The 90s saw a revitalized surge of interest in intentional communities and ecovillages in North America: the number of intentional

communities listed in the Communities
Directory increased 60 percent between
1990 and 1995. But only 10 percent of the
actual number of forming-community
groups actually succeeded. Ninety percent
failed, often in conflict and heartbreak.

After visiting and interviewing founders of

concluded that "the successful 10 percent"
had all done the same five or six things
right, and "the unsuccessful 90 percent"
had made the same handful of mistakes.

Recognizing that a wealth of wisdom were
contained in these experiences, she set out
