The Turn of the Screw', first published in 1898, is a novella written by Henry James, who was considered a master of creating best psychological fiction. It is a gothic novel, work of great horror, by one of the most acclaimed authors of the modern European literature.

INSTANT NEW YORK TIMES BESTSELLER “A superb suspense writer...Brava, Ruth Ware. I daresay even Henry James would be impressed.” —Maureen Corrigan, author of *So We Read On* “This appropriately twisty Turn of the Screw update finds the Woman in Cabin 10 author in her most menacing mode, unfurling a shocking saga of murder and deception.” —Entertainment Weekly From the #1 New York Times bestselling author of *The Lying Game* and *The Death of Mrs. Westaway* comes this thrilling novel that explores the dark side of technology. When she stumbles across the ad, she’s looking for something else completely. But it seems like too good an opportunity to miss—a live-in nannying post, with a staggeringly generous salary. And when Rowan Caine arrives at Heatherbrae House, she is smitten—by the luxurious “smart” home fitted out with all modern conveniences, by the beautiful Scottish Highlands, and by this picture-perfect family. What she doesn’t know is that she’s stepping into a nightmare—one that will end with a child dead and herself in prison awaiting trial for murder. Writing to her lawyer from prison, she struggles to explain the events that led to her incarceration. It wasn’t just the constant surveillance from the home’s cameras, or the malfunctioning technology that woke the household with booming music, or turned the lights off at the worst possible time. It wasn’t just the girls, who turned out to be a far cry from the immaculately behaved model children she met at her interview. It wasn’t even the way she was left alone for weeks at a time, with no adults around apart from the enigmatic handyman. It was everything. She knows she’s made mistakes. She admits that she lied to obtain the post, and that her behavior toward the children wasn’t always ideal. She’s not innocent, by any means. But, she maintains, she’s not guilty—at least not of murder—but somebody is. Full of spellbinding menace and told in Ruth Ware’s signature suspenseful style, *The Turn of the Key* is an unputdownable thriller from the Agatha Christie of our time.

One of the greatest ghost stories ever told, *The Turn of the Screw* is now a feature film from Universal Pictures premiering January 24th, produced by Steven Spielberg and starring Finn Wolfhard and Mackenzie Davis This unsettling collection brings together eight of Henry James's tales exploring ghosts and the uncanny, including his infamous ghost story, "The Turn of the Screw," a work saturated with evil. James's haunting masterpiece tells of a nameless young governess sent to a country house to take charge of two orphans, Miles and Flora. Unsettled by a dark foreboding of menace within the house, she soon comes to believe that something malevolent is stalking the children in her care. But is the threat to her young charges really a malign and ghostly presence or something else entirely? This collection also includes "The Jolly Corner," "Owen Wingrave," and further tales of visitations, premonitions, madness, grief, and family secrets, where the living are just as mysterious and unknowable as the dead. In these chilling stories, Henry James shows himself to be a master of haunting atmosphere and unbearable tension.

The Turn of the Screw is an 1898 horror novella by Henry James that first appeared in serial format in *Collier's Weekly* magazine (January 27 - April 16, 1898). In October 1898 it appeared in *The Two Magics*, a book published by Macmillan in New York City and Heinemann in London. Classified as both gothic fiction and a ghost story, the novella focuses on a governess who, caring for two children at a remote estate, becomes convinced that the grounds are haunted.

Access Free The Turn Of The The Aspern Papers

A young, inexperienced governess is charged with the care of Miles and Flora, two small children abandoned by their uncle at his grand country house. She sees the figure of an unknown man on the tower and his face at the window. It is Peter Quint, the master's dissolute valet, and he has come for little Miles. But Peter Quint is dead. Like the other tales collected here - 'Sir Edmund Orme', 'Owen Wingrave', and 'The Friends of the Friends' - 'The Turn of the Screw' is to all immediate appearances a ghost story. But are the appearances what they seem? Is what appears to the governess a ghost or a hallucination? Who else sees what she sees? The reader may wonder whether the children are victims of corruption from beyond the grave, or victims of the governess's 'infernal imagination', which torments but also entrals her? 'The Turn of the Screw' is probably the most famous, certainly the most eerily equivocal, of all ghostly tales. Is it a subtle, self-conscious exploration of the haunted house of Victorian culture, filled with echoes of sexual and social unease? Or is it simply, 'the most hopelessly evil story that we have ever read'? The texts are those of the New York Edition, with a new Introduction and Notes. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

An unsettling new collection of Henry James's best short stories exploring ghosts and the uncanny 'There had been a moment when I believed I recognised, faint and far, the cry of a child; there had been another when I found myself just consciously starting as at the passage, before my door, of a light footstep' 'I see ghosts everywhere', wrote Henry James, who retained a fascination with the supernatural and sensational throughout his writing career. This new collection brings together eight of James's tales exploring the uncanny, including his infamous ghost story, 'The Turn of the Screw', a work saturated with evil, in which a fraught governess becomes convinced that malicious spirits are menacing the children in her care. The other masterly works here include 'The Jolly Corner', 'Owen Wingrave' and further tales of visitations, premonitions, madness, grief and family secrets, where the living are just as mysterious and unknowable as the dead. With an introduction and notes by Susie Boyt General Editor Philip Horne

First published in the U.S. in the anthology collection *The Two Magics* in 1898, Henry James's classic ghost story *The Turn of the Screw* has been enthralling readers for over a century and shows no sign of losing popularity as new generations continue to discover this chilling masterpiece.

After a devastating tsunami in Japan, cousins Jet and Kai spend the summer together in Astoria, Oregon, training for the Young's Bay Treasure Island sailboat race and become close friends in the process.

This Modern Library Paperback Classics edition brings together one of literature's most famous ghost stories and one of Henry James's most unusual novellas. In *The Turn of the Screw*, a governess is haunted by ghosts from her young charges past; Virginia Woolf said of this masterpiece of psychological ambiguity and suggestion, 'We are afraid of something unnamed, of something, perhaps, in ourselves...Henry James...can still make us afraid of the dark. In his rarely anthologized novella *In the Cage*, James brings his incomparable powers of observation to the story of a clever, rebellious heroine of Britain's lower middle class. Hortense Calisher, in her Introduction, calls it a delicious story, the more so because it confounds what we expect from James.
