By Jeffrey L. Metzner, MD Mental health practitioners are confronted with the difficult task of assessing the risk that offenders pose to the general public. This comprehensive volume provides practitioners with the knowledge and insight necessary to conduct violence risk assessments, and to synthesize clinical and research data into comprehensive reports and oral testimony. Violence risk assessment requires a well-formulated and comprehensive risk management plan. Andrade and the authors present that plan, and demonstrate how it can be clearly implemented in practice. With numerous clinical case studies, this book illustrates the process of conducting violence risk assessments, outlines the tools used in these evaluations, and explains how information is translated into an overall

Presenting a comprehensive framework for conducting a scientifically grounded violence risk assessment, this book is authoritative, current, and practical. The essentials of doing this type of evaluation are reviewed, and available risk appraisal instruments are described for general violence, sexual violence, and spousal violence. The authors provide expert advice on choosing suitable instruments and approaches for particular cases, interpreting the resulting data, and communicating with legal decision makers. A detailed outline shows how to organize assessment findings into an effective final report; a sample completed report is featured in the appendix.

The decision to release someone from psychiatric hospital, forensic services or prison is often controversial, and forensic psychologists play a key role in assessing the risk of recidivism. In *Violence Risk*, Chris Webster and Steve Hucker discuss the accuracy of prediction and highlight how violence assessments would improve if well-established findings became entrenched in clinical and research practice. Although the authors write the majority of the text, specialist colleagues add essential material on subjects such as averting spousal assault, sex offending, and improving community support.
