Vitamin D Revolution - coretext.org

I once asked a scientist in the Vitamin D revolution how change in the medical industry could be brought about to improve the health of the world's population. His answer was simple, "It will take leadership." Leadership is one of those words that is hard to define in social groups. We often mistake management for leadership.

Vitamin D Revolution | Vitamin D Deficiency Survivor

Vitamin D seemed like a better focal point (cheap, safe, natural!) and the case for its effectiveness is not without merit. Indeed, an Israeli company, RootClaim, which combines crowdfunding of data with Bayesian algorithms to improve decision making (yeah, some reasons for skepticism here) has offered to bet anyone \$100,000 (I think at 1:1 ...
