Sound Reproduction: The Acoustics and Psychoacoustics of Loudspeakers and Rooms, Third Edition explains the physical and perceptual processes that are involved in sound reproduction and demonstrates how to use the processes to create high-quality listening experiences in stereo and multichannel formats. Understanding the principles of sound production is necessary to achieve the goals of sound reproduction in spaces ranging from recording control rooms and home listening rooms to large cinemas. This revision brings new science-based perspectives on the performance of loudspeakers, room acoustics, measurements and equalization, all of which need to be appropriately used to ensure the accurate delivery of music and movie sound tracks from creators to listeners. The robust website (www.routledge.com/cw/toole) is the perfect companion to this necessary resource.

World-renowned tresero (tres player) Nelson Gonzalez explains tuning and playing of the Cuban tres guitar, offering tips for beginning to advanced players. As the instrument's name implies, the tres has three courses of double or triple strings and is used both as a lead and an accompaniment instrument. the author thoughtfully includes instructions for converting a normal 6-string guitar to a tres guitar, offering suggestions for appropriate string gauges.This may be the first book of its kind published outside of Cuba. the method contains Latin folksongs arranged for the beginning tres player plus examples of repeated, often syncopated underlying vamps called montunos. the book also presents all principal chords and scale patterns plus notation fundamentals- all beautifully illustrated with clear photos, diagrams and explanations. Written in standard notation only.Nelson Gonzalez is singularly qualified to write this book. Known in Latin music circles as the "Ambassador of the Cuban Tres Guitar", he has toured or recorded with a virtual Who's Who of Latin stars not to mention his own band, Son Mudano. His tres mastery is featured on dozens of recordings with such artists as Tito Puente, Gloria Estefan, Andy Garcia, Paul Simon, and Marc Anthony to name only a few.

This is a collection of songs and prayers from Taize which can be integrated into a formal parish service, used as an inspiration for personal meditation or taken as a format for group worship. It includes the music for each chant with words in the original language as well as an English translation where appropriate.

Althea and Lucas barely escaped the Others' clutches in the autumn, and were separated in the process. Alone and on the run from the cruel alien race determined to exterminate her, Althea struggles to adapt and survive in a world she never imagined. When a boy named Pax appears out of nowhere, he quickly recognizes Althea for what she is - a human/Other hybrid just like him. Althea begs him to help her find Lucas, but Pax refuses, intent on following his own mysterious agenda. The Others' presence continues to devour the planet's resources, and if history is an indication, they won't leave until Earth is destroyed beyond repair. Althea and Pax sense the only way to save themselves - and maybe their home - is to understand the powers simmering inside them. Together they push the limits of their capabilities in the quiet Wilds, but are soon confronted with a terrifying fact: no place is safe from the relentless pursuit of the Others. Least of all their own minds.

Fans who love King Arthur's legend, Camelot, Merlin, and similar tales will love reading about Morgan le Fay. Morgan is a willful, mischievous girl with mismatched eyes of emerald and violet. A girl of magic, whose childhood ends when King Uther Pendragon murders her father and steals away her mother. Then Pendragon dies and, in a warring country with no one to claim the throne, there are many who want Morgan dead. But Morgan has power, and magic. She is able to change the course of history, to become other, to determine her own fate-and, thus the fate of Britain. She will become Morgan le Fay. "Springer wields language like a sword, and both blood and flowers spring to these pages in vivid hues." (Booklist, starred review)
